

# Carry Me

## Talla 2XLC

Pain is a forest we all get lost in  
Between the branches hope can be so hard to see  
And in the darkness we've all got questions  
We're all just trying to make sense out of suffering but  
You say I am blessed because of this  
So, I choose to believe  
As I carry this cross, You'll carry me  
Help me believe it  
Fear is a current we all get caught in  
And in its motion faith can be so hard to find  
And we all falter 'cause we're all broken  
We're all just trying to turn the shadows into light but  
You get glory in the midst of this  
And You're walking with me  
And you say I am blessed because of this  
So, I choose to believe

As I carry this cross, You'll carry me  
And I know Your promises are faithful  
And God, I've seen Your goodness in my life  
And oh, I've found Your mercy is a river  
Your love is an ocean wide  
You say I am blessed because of this  
You get glory in the midst of this  
And You're walking with me  
And You say I am blessed because of this  
So, I choose to believe  
As I carry this cross, as I carry this cross  
'Cause as I carry this cross, You'll carry me  
You'll carry me, God  
You'll carry me  
And Your love is an ocean wide
