

No Angel

Playdough

You were my downfall, too hot to come down
I couldn't see passed the clouds but baby, look at me now
Yeah, I'm crumbling, acting like I got two feet on the ground
My knees don't have it, don't look at me now You don't have to go, never had a love like this
And you don't have to leave, I never had someone take over me So forget the high, the flashing lights
It's just all or nothing when you live in the lights
So all that I give caught up in the lightning
Said you need me, she needs me more than you
Figure it out now, I'm so confused
I'm sorry, I'm caught up in love like this I don't even know you, why is this happening
Why is everything oh so different
You were my king, though, baby, I was your queen
Would've give up everything just to have you here with me You don't have to go, never had a love like this
Baby, you don't have to leave, never had a love like this So forget the high, the flashing lights
It's just all or nothing when you live in the lights
So all that I give caught up in the lightning
Said you need me, she needs me more than you
Figure it out now, I'm so confused
I'm sorry, I'm caught up in love like this Caught up in love like this
Sorry
Caught up in love like this
Sorry
Sorry, so sorry
Baby, sorry, so sorry
Baby
