

# Pink And Glitter

[Tori Amos](#)

Dawn Roses that is what you call  
All the girls in the world, even the thorns  
You're surrounded by an army of two who adore you  
Our joy isn't about a present or a grown up motor toy  
Little boys don't get an honorable mention from me  
But this year I'm thinking  
Shower the world, shower the world  
Shower the world with pink if you please  
Shower the world, shower the world  
Shower the world  
Black satin is what I wore  
That and our hearts left on the floor  
How was I in that marshmallow snow  
To know my life would change that night?  
Our joy isn't about a present or a grown up motor toy  
Little boys don't get an honorable mention from me  
But this year I'm thinking  
Shower the world, shower the world  
Shower the world with pink if you please  
Shower the world, shower the world  
Shower the world in pink  
We will paint the town  
Champagne never looked so divine  
On his lips the sweetest words  
Love, you've given me quite a ride  
Our joy isn't about a present or a grown up motor toy  
Little boys don't get an honorable mention from me  
But this year I'm thinking  
Shower the world, shower the world  
Shower the world with pink and glitter  
Shower the world, shower the world  
Shower the world with pink
