I Made It

Kevin Rudolf feat. Birdman, Jay Sean and Lil Wayne

Gone are the flames
Gone are the tears and pain
That burned me, that hurt me
Some days I could barely get through
Still I knew I stood never too far from you

Look at me now, I made it
Feel my heart now, I made it
Reaching things now I never thought possible
Here I am now, I made it.
Here is my life, my true dream

I am not afraid that even through
The darkest moment I never gave up
In my mind what am reaching for
Is coming closer my dream never faded out

(i never gave it up!)

Look at me now, I made it
Feel my heart now, I made it
Reaching things now I never thought possible
Here I am now, I made it
Here is my life, my true dream

I felt you in me.
(i felt you in me)
I saw you in me.
(i saw you in me)
I never gave up.
(i never gave it up)

Look at me now, I made it
Look at me now, I made it
Here how I made it
Look at me now I made it (look at me now)
See I have now made it (look at me now)
Here how I made it
Here I am now, I made it
Here is my life, my true dream
