Fire Bug

Jonathan David McPherson

Burn it up burn it down
let it burn across the town
my heart will catch afire when my fire bug's aroundFire Bug, Fire Bug
She's my little Fire Bug
She gonn' light a fire when she begins to kiss and a hugI took her to the winter ball and melted all the snow
That little gal starts dancing and she torches up the floorFire Bug, Fire Bug
She's my little Fire Bug
She gonn' light a fire when she begins to cuttin' up the rug(Guitar Solo)Tried to make my killer move a lonely summer night.
She strung me out and lit me up like Christmas in JulyFire Bug, Fire Bug
She's my little Fire Bug
She gonn' light a fire with a little bitty kiss and a hug(Guitar Solo)Burn it up burn it down
let it burn across the town
my heart will catch afire when my fire bug's aroundFire Bug, Fire Bug
She's my little Fire Bug
She gonn' light a fire with a little bitty kiss and a hug
She gonn' light a fire with a little bitty kiss and a hug
