

The Good Life

The Collective

[Intro]

I wanna give you the good life.[Verse 1]

Just take my hand

And close your eyes

I'm gonna take you for a ride

Baby we're going somewhere new.

Our future looks so clear tonight

Those stars reflecting in your eyes

Wish I could capture it for you.[Pre-Chorus]

I'll be right by your side

Through the lows

Through the highs

If you trust me

I'll show you the places I go.[Chorus]

I wanna give you the good life

Woah oh oh

Woah oh oh

Lets fly around

See every city in one night

Woah oh oh

Woah oh oh

I'll change the world

I wanna give you the good life

Yeah

Gotta leave this town

I wanna give you the good life

The good life

The good life.[Verse 2]

Just spin the globe

And close your eyes

There's not a place too far to fly

Take off and cross the ocean blues.

Even a million metres high

Some baggage never leaves your sight

Just like I won't be leaving you.[Pre-Chorus]

I'll be right by your side

Through the lows

Through the highs

If you trust me

I'll show you the places I go.[Chorus]
I wanna give you the good life
Woah oh oh
Woah oh oh
Lets fly around
See every city in one night
Woah oh oh
Woah oh oh
I'll change the world
I wanna give you the good life
Yeah
Gotta leave this town
I wanna give you the good life
The good life
The good life.[Hook]
Lets take every street
We'll see everything
All I need here is you.
Baby come with me
What would be relief
I'll do all I can do.[Rap]
Miss independent can we talk for a minute?
I gotta let you know all these feelings
That I'm feeling
Your smile just got me reeling
So forgive me in advance
For the time that I'm stealing
I just wanna be the hero
I can never be the villain.
Your thrilling
The very side of you is undefinable
You made me skip a line or two
Like double dutch is what I do
True
Girl the good life is calling
I'm all for your falling in love.[Chorus]
I wanna give you the good life
Woah oh oh
Woah oh oh
Lets fly around
See every city in one night
Woah oh oh
Woah oh oh
I'll change the world
I wanna give you the good life

Yeah
Gotta leave this town
I wanna give you the good life
The good life
The good life.[Hook]
Lets take every street
We'll see everything
All I need here is you.
Baby come with me
What would be relief
I'll do all I can do.[Outro]
I wanna give you the good life.
