Turn It Off

Phantogram

I've got your name
Got your notebook
Cellphone look
Population
An invitation to die
And all the faces
Mopeds can't collide
It's fascination
And it will eat you aliveMe I'm no stranger to the
Law
And no I won't abide
I've got my handcuffs
Mouth taped
Suicide eyes
And all the faces
Gracious
Look up to the sky
This is the way of the
World
Weight of the world
Makes me cryI could have been easier
On you
I should have been a
Little bit easier on you
