

Something's Gotta Give

Velvet Crush

Don't believe that your not quite sure
This is every word that you heard before And it's true, you know that's true
I'm taking the life line that I stole
And giving it back to you 'Cause you're dead and I don't wanna live
Something's gotta give Stop running [Incomprehensible]
Nobody to answer the call And it's true, you know that's true
I'm taking the lifeline that I stole
And throwing it back to you 'Cause you're dead and I don't wanna live
Something's gotta give, that's right I'm taking the life line that I stole
And giving it back to you Because you're dead and I don't wanna live
Something's gotta give You're dead and I don't wanna live
Something's gotta give
Something's gotta give
