# Won't Let Go

## Newton Faulkner

Go take more than you nedd. It's taken hold of me, it's taken hold of me. Now you're looking for a rise
You won't get one from me. Won't get one from me
Time moves slowly on your own. You're thinking for yourself it's time
You won't let go. But you're still falling. You're on your own. But you're still falling back to earth
Go on why can't you see, that I'm not what you need ? I'm not what you need
You'll find the answers are inside. So you can dry your eyes. Dry your eyes
Time moves slowly on your own. You're thinking for yourself it's time
You won't let go. But you're still falling. You're on your own. You should be thinking for yourself

Give it time. Let it breathe for a while. You won't let go. But you're still falling back to earth
Sun it mixes with the leaves. It gives you time to breathe. Gives you time to breathe. I'm no virtue but it's right
Things aren't so black and white. Aren't so black and white
Times moves slowly on your own. You're thinking for yourself it's time
You won't let go. But you're still falling. You're on your own. Should be thinking for yourself
Give it time. Let it breathe for a while. You won't let go. But you're still falling back to earth
Back to earth. Back to earth. Back to earth
