

# Prima Donna

## Chevelle

Running out again, should've solved this right  
Suddenly confused, I shifted sides  
But listen little prima donna  
Wrap your head 'round this simple thought  
I won't be left out  
You learn a thing or two  
When we were young we'd shout  
Let's separate the city  
We won't be left out  
You landed on the answer  
I won't be left out  
(ooooh, oooooh)  
When the world owns so much of you  
From your daring to fit in  
At first they pass you 'round  
You're only left holding the sin  
But the difference quite simply  
That untied these arms  
Was the helpless artist  
Cast the final stone

I won't be left out  
You learn a thing or two  
When we were young we'd shout  
Let's separate the city  
We won't be left out  
You landed on the answer  
I won't be left out  
Soon,  
Soon these souls will be born  
Safe from any  
Soon,  
Soon these souls will be born  
But I won't be left out  
You learn a thing or two  
When we were young we'd shout  
Let's separate the city  
We won't be left out  
You landed on the answer

I won't be left out
