## There's A Girl In The Corner

## **The Twilight Sad**

You're not coming back
You're not coming back from there
She's not coming back
She's not coming back from thereThere's a girl in the corner
And she's crying for you
Gonna die for you
She's not coming back
She's not coming back from there

And you're not coming back

And you're not coming back againYou said you'd leave me and I will forget I'm more than one and I see how it fights

You thought you love me but you just forget

You rolled in on but not too far And you're not coming back

And you're not coming back from thereTo all the boys you knew,

They don't belong outside, outside,

Outside, outside, outsideShe's not coming back

And she's not coming back again

You say you feel it too much

You say you feel it too much

She's not coming back

She's not coming back

She's not coming back

And she's not coming back for me
