I Know

The Derek Trucks Band

I wanna know how it feels to be kissed
cold chills runn up and down my spineI wanna know how it feels to be talked to
Till the word drive me stoned out my mindWell I know how it feels to be lonely
I know how it feels to be blue
Come show me how it feels to really be loved
And Ill spend my time loven youI wanna know how it feels to be needed
I wanna know by the end of the night
I wanna know how is feels to have a girl
Wholl love me and treat me just rightWell I know how it feels to be cheated on
I know how it feels to be blue
Come show me how it feels to really be loved
And Ill spend my time loven youWell I know theres no pot-o-gold at the end of the rainbow
That was such a long time ago
Come show me how it feels to really be loved
And I wont be blue anymoreHold on baby Hold on
Love me tighter babe
I wanna know I wanna know
I wanna know how it feels
To be loved
