

# Into the Wide

## Delta Spirit

At the end of the last road in town  
At the edge of that wall of trees  
Further in, past any trail or sign  
Back to the wide open arms of the EarthThe wind whispered no name  
but it's voice cracked off the cliff  
Almost see it rush right through you  
Back to the wide open arms of the EarthIt's a grind, the business role  
Every new year, a new bell to toll  
Before it's too late, I'm gonna save my soul  
Back to the wide open arms of the Earth
