

# So Blind

## Dishwalla

You feel nervous  
So much you can't swallow  
Now you sit here worthless  
Watch her sing, watch her shaking up my life You're so blind  
You're so blind  
(I know that you know) She makes me feel  
Like a man in a spaceship going down  
Where no one has gone before  
Far away, so far away from here You're so blind  
You're so blind  
(I know that you know)  
You're so blind  
(I know that you know) Tonight could be all that is pure  
For a night on the Lincoln bedroom floor  
Too much is enough for us to burn  
Shut up and listen to your life You're so blind  
Listen to your life  
(You're so blind)  
I know that you know Listen to your life  
You're so blind  
(I know that you know)  
You're so blind  
You're so blind  
(I know that you know)
