

Luminol

[Ryan Adams](#)

Nobody with no one to call, and all this time
Hot metal as her clothes dissolve, emergency lights
It's genocide
It's suicide I'm spinning around the room in awe
I'm spinning around the room I'm floating through a room of halls, party time
Stops breathing like a china doll, and broken eyes
It's genocide
Suicide I'm spinning around the room in awe
All bloody in the luminol
I'm spinning around the room in awe
In awe, in awe Save my life, say my name
Save my life, say my name
Name It's genocide
Suicide I'm floating through a room of halls
All bloody in the luminol
I'm spinning around the room in awe In awe, in awe, in awe
In awe, in awe, in awe
In awe, in awe
