

Road To Somewhere

Goldfrapp

Walking down the Mercer St
Been a long, hot summer
Rain like daggers coming
Down on me
Get a feeling, it's too late
But alone, together, could
Be we might start it up
All over again
Dream, dream you're not too late
Sweet road to somewhere else
Listen to the radio
Are you calling?
3'o clock, I'm on my way
On the road to somewhere
Little clouds like wounds
That blow away
Listening to the radio like a
Friend that guides me
Playing out every song
We used to know
Dream, dream you're not too late
Sweet road to somewhere else
Listen to the radio
Are you calling?
Bring it on, come along
On the road to somewhere
Take our time, see the signs
On the road to somewhere
