Advisory - the following lyrics contain explicit language:

Ooo yeah Everywhere in this city
The word is gettin' around
About a girl who's so damn pretty
She's the talk of the town Dressed in black she's a heart attack
Well she's a hard one to tame
Ooo, she's livin' up to her reputation
She's livin' up to her name Everywhere she goes she gets everyone talkin', ta-ta-talkin'
And anytime she's anywhere around
Everybody says she's the talk of the town Ooo my, my she's so fine
And she's the talk of the town
Oughta know by now
She's the talk of the town
Well she's the talk of the town, yeah Built to kill with body language
She's got 'em talkin' about her
Aow, she makes the best of a sticky situation
An' that's the kind of thing Ooo everywhere she goes she gets everyone talkin', ta-ta-talkin'
And anytime she's anywhere around
Everybody says she's the talk of the town Ooo my, my she's so fine
And she's the talk of the town
Oughta know by now
She's the talk of the town
Well she's the talk of the town
The talk of the town
Now she's the talk of the town, yeah Oh oh
Talk to me Ooo my, my, she's so fine
And she's the talk of the town
Oughta know by now
Baby gets around
She's the talk of the town Ooo my, my she's so fine
And she's the talk of the town, yeah yeah
Oughta know by now
Baby gets around

She's the talk of the town
Well she's the talk of the town
The talk of the town
Well she's the talk, the talk of the town, yeah
The talk of the town Oh when she's walkin', everybody's talkin'
About the talk of the town
Well she's the talk of the, she's the talk of the
Town yeah
