

You Wrecked Up My Heart

Buddy Miller

You wrecked up my heart
With your careless love
Took me all apart
Now the damage is done
My mind is all in pieces
It's way beyond repair
You wrecked up my heart and you don't care
You used to be so sweet to me
I follow you right out on the ledge
And when I took that lover's leap
Well baby you pushed me right over the edge
You wrecked up my heart
With your careless love
Took me all apart
Now the damage is done
My mind is all in pieces
It's way beyond repair
You wrecked up my heart and you don't care
I guess I should have looked both ways
When I pulled out on the highway of your love
Cause you were moving way too fast
And now I just one more hit and run
