

# That's Freedom

John Farnham

I don't know what you want from me  
Or what you think a love ought to be  
I want something that's open and strong  
As the country, this road's moving on  
From the mountain to the valley  
From the ocean to the alley  
From the highway to the river  
One emotion to deliver  
One heart, one way, one love  
To share but not to chain  
That's freedom  
It's a song of the heart  
A race in the wind  
A light in the dark  
That's freedom  
It's a reason to live  
And after the rain  
Rekindle this fire  
Let freedom ring  
I don't know why it takes so long to remember  
What the world's doin' wrong  
Never wanted to shove my plan on another  
Who can't understand  
All I want is a fast lane to  
Where the road across this plain  
Won't take you  
I want something you understand  
To make us stand proud  
As nothing else can  
That's freedom  
It's a song of the heart  
A race in the wind  
A light in the dark  
That's freedom  
It's a reason to live  
And after the rain  
Rekindle this fire  
That's freedom  
It's a measure of trust  
When love is alive  
It's tender and tough  
That's freedom  
It's all love is about  
This opening up and letting it out  
Let freedom ring  
From the mountain to the valley  
From the ocean to the alley  
From the highway to the river  
One emotion to deliver  
One heart, one way, one love  
To share but not to chain  
That's freedom  
It's a song of the heart

A race in the wind  
A light in the dark  
That's freedomIt's a reason to live  
And after the rain  
Rekindle this fire  
That's freedomIt's a measure of trust  
When love is alive  
It's tender and tough  
That's freedomIt's all love is about  
This opening up and letting it out  
Let freedom ring, yeah, yeah, ohThat's freedom, freedom  
That's freedom
