

My Destiny

Katharine McPhee

I have always dreamed of this
I'll admit that there was something I missed
Wondering if it is for real
Every mistake, every wrong turn
Every time I lost my way
Led me to this moment of bliss tonight
With you finally I can break free
With you it's all changing in my destiny
Dream come true, it's so funny now that I see
How different life turned out to be
You were always by my side
That you believed in me was enough reason why
I didn't stop, didn't give up, even if I sometimes I lost hope
I did my best and I am blessed in life
With you finally I can break free
With you it's all changing in my destiny
Dream come true, it's so funny now that I see
How different life turned to be, yeah
Can I get any higher?
Tell me, does it get any stronger?
I owe it to you that I made it through
I never could have done it without you
With you
(Finally I can break free)
I can break free, yeah
It's all changing in my destiny
Dream come true, it's so funny now that I see
How different life turned to be
(Finally I can break free)
Oh, cause of you it's all changing in my destiny
Dream come true, it's so funny now that I see
How different life turned out to be
I've realized that it's my destiny
