

Majoring In Minors

Sugarcult

Watching your lips move together
Nothing's making sense
Talk to me, talk to me I don't wanna break the silence
With the taste of something violent
Come to me, come to me I don't believe the lies
Reading between the lines
I don't belong here any longer
Holding on this time Watching every move you make
I hope you slip
I hope this fades away, fades away I get closer with the silent treatment
When it hurts to need it
When it's hard to leave it
Come to me, come to me I don't believe the lies
Reading between the lines
I don't belong here any longer
Holding on this time I don't believe the lies
This is the last goodbye
I don't belong here any longer
Holding on this time I'm letting go
I'm letting go
I'm letting go
God only knows
It's getting harder everyday I don't believe the lies
Reading between the lines
I don't belong here any longer
Holding on this time I don't believe the lies
This is the last goodbye
I don't belong here any longer
Holding on this time Watching your lips move together
Nothing's making sense
Talk to me
