

# Not This Time

## F-Minus

Can't feel the pills no more  
Put my arm through the fucking window  
Brought it to the bone  
Another day gone, another wasted  
Let go of me...Gimme more rights to wrong  
This sick joke has gone on too long  
Inflictions thier reason to live  
While taking all you got to give  
Let go of me...\*Not this time. Im too busy living my life  
The day is already cold, tommorow's getting oldThey say They're gonna make me pay  
Say they got what i need  
Spent all i have to spend  
Time to throw it all awayThanks to Cool Dude (icarmo@sbcglobal.net) for these lyrics
