That Girl Should Be Me

Cimorelli

We had plans tonight
But you cancelled on me for the third timeI'm stuck thinking about you
I don't, don't know what to do
Look what, you're putting me through (you're putting me through)Then I see your car driving by my street
Who's that girl in your passenger seat?Tell me why can't you see
Baby, we're meant to be
Got your music up so loud
Why don't you can hear meNow I'm walking down the street like it's a runway
I'm on a mission like 007
Can't you see you're with the wrong girl baby
That girl should be meI gotta make you see
That girl should be meI wish I just stop thinking about you
Oh, wait, that's impossible
I'm just wishing I'm with you
I don't, don't know what to do
Say what, say what you want to (say what you want to)Then I saw your car driving by my street
Who's that girl in your passenger seatTell me why can't you see
Baby, we are meant to be
Got your music up so loud
But you can't hear meNow I'm walking down the street like it's a runway
I'm on a mission like 007
Can't you see you're with the wrong girl baby
That girl should be meI gotta make you see
That girl should be me
I gotta make you see
I'm gonna make you seeTell me why can't you see (yeah)
Got your music up so loud (so loud)
That you can't hear meI gotta make you see
That girl should be meNow I'm walking down the street like it's a runway
I'm on a mission like 007
Can't you see you're with the wrong girl baby
That girl should be meI gotta make you see
That girl should be meThat girl should be me
