Let You Down

Three Days Grace

Trust me
There's no need to fear
Everyone's here
Waiting for you to finally be one of usCalm down
You may be full of fear
But you'll be safe here
When you finally trust me
Finally believe in meI will let you down
I'll let you down I'll
When you finally trust me
Finally believe in meTrust me
I'll be there when you need me
You'll be safe here
And when you finally trust me
Finally believe in meI will let you down
I'll let you down I'll
When you finally trust me
Finally believe in meNever want to come down
