Baby Don't Cry

D-side

I won't forget you, I'll miss you more all the time
But I need yo let you, know that apart you're still mine, because
With everything I ever have, everything I 'll learn on the way,
I'll wipe your tears away
Everything I ever have, everything you'll ever need
Everything you want me to stay
You'll still be mine today I'll wipe your tears away
Chorus:
Crying now, won't drown the love out
I'll wipe your tears away
You and I don't need a goodbye
Don't hide
I'm here tonight so baby don't cry
There's no tommorow, without you I don't feel the dance
But I need to follow, my own feet to give us a chance, because

All the dreams I ever have, everything I long for today
Might take me far away
All the dreams I ever have, it's not as if I wanna leave
When every last look that you take
Just makes me want to stay please wipe your tears away
Chorus
It's cold and it's lonely tonight
Because everything I ever have, Everything I'll learn on the way
I'll wipe youe tears away
Chorus(
