Say What You Want

Face to Face

Wise up
You're not the only one
Who ever tried to make a difference
Distrust
Filling up in us
Before we know it truth and lies go hand in glove
Say what you want
Say what you want
I guess I'll see you here tomorrow
Say what you want
Say what you want
Trying to become who they think you should beSee the world through broken glass
A reach that far exceeds the grasp
And here we find ourselves at last
Full of questions we can't askWound up
And now you've had enough
Never mind about tomorrow
Unfun
The thought of waking up
To realize that you were commonly mistaken
Say what you want
Say what you want
I bet I'll see you here tomorrow
Say what you want
Say what you want
Out of time the window's slamming shut on youSee the world through broken glass
A reach that far exceeds the grasp
And here we find ourselves at last
Full of questions we can't ask
