

# Love is (State Of Grace)

## Britney Spears

Love is a state of grace  
Transcending time and space  
No other way I can describe  
    Insanely beautiful  
    Its almost mystical  
    Cause youre mine  
And I cant believe that I feel  
    What I feel  
Such a strange kind of real  
    Love is a state of grace  
Between you and I Golden, broken  
    I didnt know  
    One touch could open  
    My body and soul  
    And weve just begun  
    Like the moon and sun  
We fade to one Love is a state of grace  
Transcending time and space  
No other way I can describe  
    Insanely beautiful  
    Its almost mystical  
    Cause youre mine  
And I cant believe that I feel  
    What I feel  
Such a strange kind of real  
    Love is a state of grace  
Between you and I And the way  
    That we feel  
    Is a dream  
    That we know is real  
Love is a state of grace  
Love is a state of grace
