

Kody

Matchbox Twenty

Kody sat down on the avenue
And tapped his feet to the humming of the highway
Watched the light shine down on the broken glass
And thought, I don't got no reasons yet
And there it is and there it was
Now it was clear to all of us
We kept this hat of broken dreams
And we pulled them out, when we needed them around
So please hand me the bottle
I think I'm lonely now
And please give me direction
I think the hurt's set in
And I don't feel nothing yet
There's a squeak hinge down the back gate
That lets us know if he comes around
But I don't sleep that good anyway
And if you've never heard that silence
It's a god awful sound
So please hand me the bottle
I think I'm lonely now
And please give me direction
I think I just caved in
And I don't feel nothing yet
And I don't feel nothing
And I don't feel nothing
There's nothing to feel good about here
Don't much get down onto the avenue
I could drive, but it takes so much to get there
Don't get off on all the broken glass, the cadillac scene
I've seen a lot of good things die and I'm in an over emotional well
So please hand me the bottle
I think I'm lonely now
And please give me direction
I think the hurt's set in
Please hand me the bottle
I think I'm lonely now, lonely now, lonely now
Hold me now, oh hold me now
And please give me direction
I think I just caved in

But it aint nothing
