Little Boy

Sodom

Mother's little freckled boy
His father's pride
The little beauty, sweet beloved
The sunshine of their livesThere's something in the air tonight
Little boy
Send greetings to the other side
Little boyResting by your teddy's side
Sleeping without guilt
With magic in your mind
No war inside your dreams[Incomprehensible]
Gonna see the life below
Little boy
Dead means when you touch the ground
Little boyNo God will pray the world to leave
Little boy
'Cause [Incomprehensible] the one who did
Little boyThe truth with dirt in its face
Bubble in his hair
Innocence of babyhood
Never really careI let you go, leave me alone
Little boy
My work is done, now it's your turn
Little boyI can't look back, just say good bye
Little boy
Appeared to me so shining bright
Little boyThere's something in the air tonight
Little boy
Send greetings to the other side
Little boyDon't believe it can't be true
Little boy
I put my faith and trust in you
Little boyHow many ears need a man
To hear the people cry
How many times a man must look
Before he see the skyHow many years a mountain needs
Before it washed to the sea
How many times some people need
To get allowed to live
