Do That

Barry Ryan

Something about the way you strut your stuff
Makes me wonder how it feels to be with you
Girl, I wanna touch you
Something in your eyes they speak to me
If anyone awakes the freak in me, you do
Girl, I wanna freak youAnd come over here girl, I still feel your vibe
And you're making my body feel so alive
And I can't wait 'til I get you in my ride
Can we get it on? OhI can see you really wanna play
There's no reason why we got to stay
Baby, swing my way, do that, do that
But, your friends say you got to go
Where we goin' they don't have to know
Baby swing my way, do that, do that, do thatI'll make you want to do things, try new things
That you never did before
We can take it to the movies in the jacuzzi
Girl, I'm always good to goThe way you're shakin' your body, girl you got me
So come on and start the show
Come on, come on, come on
Come on, come on, come on, ohAnd come over here girl, I still feel your vibe
And you're making my body, feel so alive
And I can't wait 'til I get you in my ride
Can we get it on?
Can we get it on, get it on?
Can we get it on?I can see you really wanna play
There's no reason why we got to stay
Baby, swing my way, do that, do that
Your friends say you got to go
Where we goin' they don't have to know
Baby, swing my way, do that, do that, do thatDo that, do that
Girl, I hope you wanna, do that, do that, do that
'Cause I really wanna, do that, do that, do that
Girl, I hope you wanna, do that, do that, do that
You got to do thatI can see you really wanna play
There's no reason why we got to stay
Baby, swing my way, do that, do that, do that
Your friends say you got to go
Where we goin' they don't have to know
Baby, swing my way, do that, do that, do thatI can see you really wanna play

There's no reason why we got to stay
Baby swing my way, do that, do that, do that
Your friends say you got to go
Where we goin' they don't have to know
Baby swing my way, do that, do that, do thatDo that, do that
Girl, I hope you wanna do that
