

# Ascending into Madness

## Hard Working Americans

I've come down here one last time  
A few times  
A few times after that  
but that was just for old time's sake  
and I know that I've come here a few times  
for no good reason at all but this time I swear  
I'm just down here by mistake  
I'll quit drinking for the reason that I started drinking  
when it makes me feel better than I already do  
From rags to riches to rags  
to richly embellished accounts of the truth  
ascending into madness  
Rest in chaos my old friend I sang you my song and then another one  
not knowing if I gave you a choice you would make it  
It will hit you just like dying they say  
but it's even worse if you're able to take it  
you're ascending into madness  
Rest in chaos my old friend The dead had been around this block a few times more than you had  
a few times more than we all had  
well back before it was even paved  
and they say that upon the sea of hypnocracy  
that the shore is just another wave  
ascending into madness  
Rest in chaos
