I Live for You

Chynna Phillips

You touch my hand
I live for you
Because your eyes
They understand
I live for youCome to me, lay your body down
I won't deny you anything
Look at me, I feel so different now
You're the one I cry toYou're all around me
I breathe you in like air
Your arms have found me
Like waves that find the sand
And baby, I'll be thereYou touch my hand
I live for you
Because your eyes
They understand
I live for youIn my life
You come through
I live for, I live for
I live for youWalk with me, the future's in the wind
Though the road is a winding, I'll be near
Oh, talk to me, tell me all your fears
I'm the one you cry toYou call me lover
And tell me I'm your life
I won't run for cover
I've shown you who I am
And in the darkest nightYou touch my hand
I live for you
Because your eyes
They understand
I live for youIn my life
You come through
I live for, I live for
I live for youIn your arms, I come alive
Live for you, live for you
In my life, I am free
No one could ever understand
What you do to meYou touch my hand
I live for you
Because your eyes

They understand
I live for youIn my life
You come through
I live for, I live for
I live for youYou hear my soul
So deep in you
Nobody knows
The things you know
I live for youIn my life
You come through
I live for, I live for
I live for, I live for youI live for you
I live for you
I live for you
I live for youI live for, I live for
I live for, I live for you
I live for you
