I Can Tell

Jesse Powell

I know you want me, you
The way that I want youSo why you peepin' from afar, do you want me?
Baby, I can tell you why you're wonderin'
What my love's all about, if I can put it down
Come home with me so you can see, oohTonight we'll go on and on feelin' strong
Let's make love to the early mornin'
On and on keep it strong
All night tonightI can tell, I can tell you want me
Do you well? I know that you want me
Girl, I'm so into you, let's do what you want to
I can tell, I can tell you want meSo much flavor I can't lie, it would be nice
Girl, if you would spend the night by my side
Girl, if your feelin' me, there's more for you to see
'Cause I want you like you want meTonight we'll go on and on, feelin' strong
Let's make love to the break of dawn
On and on keep it strongBaby, you know just what you do
It all depends on you
Girl, I can tell that you want me
And I want you tooI can tell, I can tell you want me
Do you well? I know that you want me
Girl, I'm so into you, let's do what you want to
I can tell, I can tell you want meI can tell, I can tell you want me
Do you well? I know that you want me
Girl, I'm so into you, let's do what you want to
I can tell, I can tell you want meI can tell, I can tell you want me
Do you well?
Girl, I'm so into you, let's do what you want to
I can tellI can tell you want me
Do you well? I know, I know
Girl, I'm so into you, what you wanna do?
I can tell, I can tell you want meI can tell, I can tell you want me
Do you well? I know that you want me
Girl, I'm so into you, let's do what you want to
I can tell, I can tell you want meI can tell, I can tell you want me
Do you well? I know that you want me
Girl, I'm so into you, let's do what you want to
I can tell, I can tell you want me
