

# Come Down

WSTRN

[Intro]

I'ma make your love come down  
I'm just in my zone[Verse 1]  
Tell me that she's prayin'  
Mama keep [?], my love is for true  
I know you're waiting, need to be patient  
I'm coming for you  
If we're gonna make this work out  
I need you to play your role  
Then we can roll  
I'm on a roll[Chorus]  
I'ma make your love come down  
I'ma make your love, make your love come down  
Gonna take you all the way down  
I'ma make your love, make your love come down[Verse 2]  
Ah my pretty little mama like woah  
Knows I'm a bad stone  
And she don't moan if I don't come back home  
Knows what the kid does, don't cause I'm naughty  
Knows when I'm with strippers gettin' it naughty for me  
Holy for drinkin', knows what I'm thinkin'  
Man I got a couple of chicks that I'm linkin'  
Long time, pace, I'ma set it for an onside  
Baby you better believe that I'll be on right  
She don't care about the rose gold  
Care what them other chickenheads don't know, know  
Better... baby I'll make your love come down  
She's fallin' for me now  
She nice up, everything tight up  
And that's why it's her street that I'm right up  
Plus I don't wanna roll over the internet  
My baby [?], I don't want strings yet[Pre-Chorus]  
You make me  
You got me in a way, go crazy  
You take me  
No one could make you feel no better  
Ooh go getter  
I'ma make you rain, no wetter  
Tell me right now cause I'm on the way down

I'ma love you right now[Chorus]  
I'ma make your love come down  
I'ma make your love, make your love come down  
Gonna take you all the way down  
I'ma make your love, make your love come down[Verse 3]  
My pretty little mama like ow  
Make your love come down  
Come and check me for a one great round  
Never cuff her when the sun stays down  
Never say you don't touch base  
You can do you, never trouble and cut, it's alright, all wide  
I'm still in love with how you perform [?]  
Duckin' from trouble, buy even more friends worldwide  
Game got me sittin' courtside  
She don't care about the iced out, pinkie, lights out  
Rocky with my style  
She keep my mind [?], where is my Lifestyles?  
[?] until you timeout  
See me... so don't be playin' 'round  
Where you at? I'm comin' over, by and stay around  
Baby I'm about to lay it down  
Feel you up and then I take you down[Pre-Chorus]  
You make me  
You got me in a way, go crazy  
You take me  
No one could make you feel no better  
Ooh go getter  
I'ma make you rain, no wetter  
Tell me right now cause I'm on the way down  
I'ma love you right now[Chorus]  
I'ma make your love come down  
I'ma make your love, make your love come down  
Gonna take you all the way down  
I'ma make your love, make your love come down  
I'ma make your love come down  
I'ma make your love, make your love come down  
Gonna take you all the way down  
Take you down  
I'ma make your love, make your love come down[Outro]  
She gon' stay there cause she know I make her love down like  
She gon' stay there cause she know I make her love down  
She know that I make that money  
Do everything that I want to do
