

Trapped in Your Lies (Psyclon Nine Remix)

Godhead

You, you can try and keep me down
Pull me under watch me drown
Given half a chance to be
I know I can break this tragedy Nothing you can say
Nothing you can do
Gotta' get away
Gotta' get away from you
As I look to the skies
I'm trapped in your lies
You pushed me too far this time
I've opened up my eyes
I see your demise
looked through your disguise this time
I'm breaking down you lies Now, now you try to set me free
Let your guilt wash over me
Given half a chance to see
I know this is all concessionary Nothing you can say
Nothing you can do
Gotta' get away
Gotta' get away from you
As I look to the skies
(x3)
I'm trapped in your lies
You pushed me too far this time
I've opened up my eyes
I see your demise
looked through your disguise this time
I'm breaking down you lies
