

If You Wanna Dance

Nobody's Angel

Hey if you wanna dance
Get your body on the floor in your hot pants
If you really wanna dance hey come on
If you wanna dance if you really wanna dance
Ooh, show me what you gonna do
Show me how to move when the music hits you
If you really wanna dance hey come on
If you wanna dance if you really wanna dance
DJ is playin' my song
I've waited all night long to get my groove on
All y'all standing on the wall, this is the last call
So get your out on the floor
Hey if you wanna dance
Get your body on the floor in your hot pants
If you really wanna dance hey come on
If you wanna dance if you really wanna dance
Ooh, show me what your gonna do
Show me how to move when the music hits you
If you really wanna dance hey come on
If you wanna dance if you really wanna dance
It's Friday going into Saturday, I don't care what you say
Gonna dance this party till the break of dawn
Ballers, hustlers, and players why don't you join us
Like I said before, "Get your keas out on the floor!"
Hey if you wanna dance
Get your body on the floor in your hot pants
If you really wanna dance hey come on
If you wanna dance if you really wanna dance
Ooh show me what your gonna do
Show me how to move when the music hits you
If you really wanna dance hey come on
If you wanna dance if you really wanna dance
Baby lets party till our bodies can't take no more

Come on lets dance till the beat just takes control
Need to release all the pressure, so let it go, let it go
Baby lets party till our bodies can't take no more
Come on lets dance till the beat just takes control
Need to release all the pressure, so let it go

Hey if you wanna dance, if you wanna dance, if you wanna dance
If you really wanna dance, really wanna dance
Really wanna dance, really wanna dance
Go daddy daddy go daddy daddy go
Go daddy daddy go daddy daddy go
Like we said before, "Get your eeze out on the floor!"
If you wanna dance come on and get down, get down
Get down, get down
If you wanna dance come on and get down, get down
Get down on the
Hey if you wanna dance
Get your body on the floor in your hot pants
If you really wanna dance hey come on
If you wanna dance if you really wanna dance
Ooh show me what your gonna do
Show me how to move when the music hits you
If you really wanna dance hey come on
Gonna dance this party till the break of dawn!
Hey if you wanna dance
Get your body on the floor in your hot pants
If you really wanna dance hey come on
If you wanna dance if you really wanna dance
Ooh show me what your gonna do
Show me how to move when the music hits you
If you really wanna dance hey come on
If you wanna dance if you really wanna dance
