Take A Shot

Lovex

I see a thousand corridors
And I've walked through them all
Nowhere an open doorI'm imprisoned by my love
Who is chained by the fears
Affection tombed in the tearsThere's a part of me that just won't take the pain
There's a part of me that just wants to burst in the flames and break all the chainsTake a shot
Of my poisonous blood
I've got a fever and it won't drop
As long as you're in my life
Take a shot
Of my poisonous blood
I'm a fever, I'll burn you up
So you'd better speed me out of your lifeI'm the farewells that tears you apart
The deceit that sucks the life
Out of your faint heartDuality's a sin for me
Rush to the arms of solitude
It's the only cureThere's a part of me that just won't take the pain
There's a part of me that just wants to burst in the flames and break all the chainsTake a shot
Of my poisonous blood
I've got a fever and it won't drop
As long as you're in my life
Take a shot
Of my poisonous blood
I'm a fever, I'll burn you up
So you'd better speed me out of your lifeCut me out of your life
I wanna see you free of all the hurt that I have caused youTake a shot
Of my poisonous blood
I've got a fever and it won't drop
As long as you're in my life
Take a shot
Of my poisonous blood
I'm a fever, I'll burn you up
So you'd better speed me out of your life
