Decapitate

Judas Priest

Your head, you will lose it
Severed when executed
You always thought
You'd never get caught
Decapitate
Sealing your fate
Rebels' futile efforts
Are quelled with effective measures
The sentence is read
Words that you dread
Decapitate
Walk through Hell's gate

You've lost your head sir
Well, you will tomorrow
Sleep well
This court's best deterrent
To set new precedents
The verdict of course
Couldn't be worse
Decapitate
Example be made
Decapitate
Will seal your fate
