Messenger

Warrel Dane

Friend of mine
Spare the time
With your skill and symmetry
Over land, over sea
Spread you wings, deliver me.Don't bring me bad news
Don't bring me sad news.Messenger, take my heart and fly away
Find my love, tell her I'm alone today
Still dreamin' of the love we used to share
Just let her know I care.When the world is asleep
And dreams are flowin' free
Will you fly through the night
And send her back to me?Don't bring me bad news
Don't bring me sad news.Messenger, take my heart and fly away
Find my love, tell her I'm alone today
Still dreamin' of the love we used to share
Just let her know I care.INSTRUMENTALHow I envy your position reaching for the sun
Perfect in your aim, cryin' for no one
Not for you the wishin' or the things that can't be done
Flyin' through the darkness to the dawn.Messenger, take my heart and fly away
Find my love, tell her I'm alone today
Still dreamin' of the love we used to share
Just let her know I care
Just let her know I care
Just let her know I care.
