Medicine

BROODS

Take me to the other side
Cause my hands are as cold as ice
They've a heart ache hurt in my chest
As the thoughts of you leave my head
Oh and it's the only, it's, it's the only way
Oh and it's the only, it's, it's the only way
Oh and it's the only, it's, it's the only way
You're my strong
I can't compete
And I follow now, moving all beyond your breeze
I'll never free
And I'll never be free
When I've got nothing left to lose
I wonder what I'll find
Without the sample side of you to leave me patient mind
But you're star
I can't complete
And I follow now, moving all beyond your breeze
I'll never free
And I'll never be free
