

Absent Stars

Year of the Rabbit

Don't you get all ashamed
Don't you dare
I've got all I can take anywhere Dive in slow, hesitate
Door is gone
Try to step in the way of your fall But I can't break out
From this blanket of doubt
Got me trapped in a maze of shadow 'Cause this gravity haze
Has blocked up my way
Am I floating inside your dream Pull me out now
Pull me out
Pull me out now
Pull me out Don't you get all afraid
Don't you dare
I've had all I can take everywhere Can't make sense in the light
Door is gone
Try to step in the way of your fall Pull me out now
Pull me out
Pull me out now
Pull me out Can I just fall out
Through absent stars?
A terror in this frail haggard night Can I just jump out
From this satellite?
The sky is burning
