Castle In the Clouds

Beverley Craven

You can waste your time building barriers
Spend your life trying to break them down again
Like an island in a sea that breathes revengeWhen we talk sometimes you're a looking glass
Every word from the blueprint of your past
In the distance there's a castle in the cloudsAnd our love will make us strong together
We can be in love forever
Just the two of us
When I get lonely, hold meWe will understand each other
You will be my friend and lover
When we're far apart
You're in my heart, I'm in your dreamsSo you call a friend up for company
Drown your tears at a table set for three
There's a shoulder and a change of sceneryBut when you wake tomorrow you're back again
And you wonder where it's all going to end
In the distance there's a castle in the cloudsAnd our love will make us strong together
We can be in love forever
Just the two of us
When I get lonely, hold meWe will understand each other
You will be my friend and lover
When we're far apart
You're in my heart, I'm in your dreams
