It's Happening Today

Slapshot

Advisory - the following lyrics contain explicit language:

Riots in the streets - it's happening today
Torture, Murder, Death - it's happening today
Starvation everywhere - it's happening today
People running scared - it's happening todayClose your eyes
Don't ask why
Don't you try
It's out of sight, it's out of...Give the streets command - it's happening today
Poisons kill the land - it's happening today
Acid from the sky - it's happening today
Rivers running dry - it's happening todayDon't look back
We're on crack
The future's black
You can turn your back
And you get stabbedIt's happening today
It's happening today
It's happening today
It's happening todayClose your eyes
Don't ask why
Don't you try
It's out of sight, it's out of mind
