One Last Mistake

LP

Head on the rise again, there's a road
Suddenly something is up ahead, I see somebody I don't know
Dreams are all I own, I guess I should go
Love is the shadow of loneliness and Lord, I've been alone(Auuuuuuuuu)
I feel with base, here I go
(Auuuuuuuuu)
Yeah, your body is calling my nameSo one last mistake (I mean to change)
Lets make one last mistake (the hardest step is always love, I guess)
(Time will heal the pain) It's already starting to fade
Lets one last mistake (the hardest step is always love, when it ends)Hand full of times I spent throwing stones
Am I destined to be desolate?
Building bridges to be alone(Auuuuuuuuu)
I feel with base, here I go
(Auuuuuuuuu)
Yeah, your body is calling my nameSo one last mistake (I mean to change)
Lets make last mistake (the hardest step is always love, I guess)
(Time will heal the pain) It's already starting to fade
Lets one last mistake (the hardest step is always love, when it ends)Whether its just one or someone
I don't know how you can drink this stuff
A little case of love, just some love, yea you know you hit the hardest stuff
So one last mistake(I mean to change)
Lets make one last mistake (the hardest step is always love, I guess)
(Time will heal the pain) It's already starting to fade
Lets make one last mistake (the hardest step is always love, when it ends)
