

Poison Lips

Vitalic

Every amp just goes to dust,
I sing that go beyond these poison lips.And we shadow electrocution
and now I'm ready too,
please von come play itEvery amp just goes to dust,
I sing that go beyond these poison lips.And we shadow electrocution
and now I'm ready too,
please von come play itEvery amp just goes to dust,
I sing that go beyond these poison lips.Every amp just goes to dust,
I sing that go beyond these poison lips
And we shadow electrocution
and now I'm ready too,
please von come play it
