And I Go Pow

The Muffs

Everyday in everyway
everybody knows I'm out there
On the day you weren't around all I want is to go powIt's ok I know what I am
Please try understanding all around
I don't care how much I've read
Please try understanding I'm out of my head
I'm out of my headMaybe once or maybe twice
I have ever been so nice
And I see you wonder how
I could have a 2 shot nowAnd I go pow and fall on my face
I don't understand what's going 'round
I don't care how much I've bled
Please try understanding I'm out of my head
I'm out of my head[solo]Anytime and anywhere
everybody knows I'm out there
I don't mind so long my pride
Come on look into my eyesIf you want now to go and find me
Please try understanding all around
I don't care how much I'm dead
Please try understanding I'm out of my head
I'm out of my head
