

# Beast

**Nina Kinert**

Why do we always talk about things like these?

Why do we always hunt each other down

Why do we always smoke those sigarets and drink a lot of wine.

I know the kind of beast that ive become,

now i dont always show my attitude and i am not always shattered when im spoken to. and i dont understand the things that you say anymore.

i know it doesnt show that i love you, Now i dont always like when children laugh and i dont give a damn about your 14 years old but who am i try to fool

by acting this way here, i need a lot of wine i know the kind of beast that ive become..wowow..
