

# Melody

## Oliver Heldens

She knows I can't read  
She knows I can't write  
But these are the letters from melody  
Show me how to read  
Show me how to write  
These are the things you can do for me  
These are the things you can do for me  
These are the things you can do for me  
Why did you kill that poor old man, melody  
  
Why did you kill that poor old man, melody  
She said  
He was never good to me  
She said  
He was never kind to me  
Tell me how she was dressed that day, my melody  
Don't show me how she touched her face, my melody  
She said, I would never do it again. Give me another chance.  
I said Why didn't you come to me?  
I said Why didn't you talk to me?
