

All I Need Is You

Braiden Wood

Where did you go?
I thought I lost you forever
But I came to know
This life is better together I wanna talk with you everyday
Spend time learning how to stay
Mind open, the love I have found
My heart beats to a glorious sound I wanna be yours
I wanna be yours Now I have some hope
These days already seem brighter
Since I've been back home
My problems seem so much lighter I love to talk with you everyday
I've learnt to love in a brand new way
Once lost, now I have been found
My heart beats to a glorious sound I wanna be yours
I wanna be yours So take me with you
I wanna be everything that you want to be
Just teach me to love the way you do
'Cause all I need is you So take me with you
I wanna be everything that you want to be
Just teach me to love the way you do
'Cause all I need is you I'm thankful for the special day
When I finally give my heart away
I'm thankful for the special day
When I finally give my heart away So take me with you
I wanna be everything that you want to be
Just teach me to love the way you do
'Cause all I need is you So take me with you
I wanna be everything that you want to be
Just teach me to love the way you do
'Cause all I need is you
