Back To The Start

SoMo

She wanted my heart,
Wanted my soul,
Wanted that loving
But I ain't tryna hold on to her heart
To see it fold.
Girl's holding on to the thought so tight
Holding on for her life
I just might have to give it to her,
For one loving night.
She whispers so slow
Said to my ear, "I love Somo."
I said, "you just wanna get in my pants,
'Cause I'm 'bout to get that dough."

She says, "I like it fast."

I say, "Why you gotta rev my gas?"

Next thing I know,

I'm standing in my front door tryna stop my handsI just wanna take your picture

Go 'head stand there in the door

Let's get naughty, let's get naughty

Take your body to the floor

Take that thing and make it drop

Come over and show me more

Hold me softly, I'll keep going

Till you're screaming and you're soreAnd we live for that rush.

And we rush for that love.

And we love for that one

That just straps up your heart.

And you're back to the start again

That just straps up your heart.

And you're back to the startShe's dripping to the core

Says to me, "can I explore

Your body, feeling exotic

And I just need a little tour."

We start off just by touching

Then we go on to rubbing

She says "I'm on top

Let me ride."

I say, "uh-uh, I'mma get that loving."

I thought you could take it fast

Yeah, you like it when I slap your ass Take it all, I'mma go deep Keep it so sweet, one night to make it last She's close, I'm about to wrap She can't open up her eyes I'm driving deep and her body's so weak And I can't let go insideI just wanna take your picture Go 'head stand there in the door Let's get naughty, let's get naughty Take your body to the floor Take that thing and make it drop Come over and show me more Hold me softly, I'll keep going

Till you're screaming and you're soreAnd we live for that rush.

And we rush for that love. And we love for that one That just straps up your heart. And you're back to the start again And she prays for the love So I stay and we run Sends a wish on a star Now just wraps up her heart We were trapped from the startSo we live for that rush. And we rush for that love. Why can't we
